Leased to Mayor Elwood and Will Soon Be Started.

BRIGHT PROSPECTS FOR THE EUTURE

Changes and Improvements that Will Make It an Up-to-Bate Plant-An Experienced Glass Manufacturer Interested.

The negotiations which have been ending for some time past for the reopening of the glass factory, in this city, are about completed, and the parties who have leased the plant expect to be gm operations in about three weeks. The papers in the case are being propared, to-day, and the lease will prob-

Mayor Charles L. Elwood will lease he property in behalf of a syndicate, and Marvin L. Deyo, formerly of Ellenville, sho has devoted many years of his life o the manufacture of glass and who controls a large trade, will assist Mr. Elwood in the practical management of

ably be signed before night.

The Middletown GlassCompany, which owns the factory, will spend a considerable qua of money in the repairs and improvements necessary to put the plant in first class shape for operation.

The process of glass making has been

revolutionized during the past three rears, and the old system of melting, the glass in pots has been abandoned, and what is known as the trink process is ow m almost universal use. The not turnace, which cost, the Glass 'ompany \$1 500 to build just before the

shut down three years ago, will be taken out and a tank will be hull in its place. By the tank system two shifts of blowers will be employed, one of which will work from 7 a, m, until 5 p. m., and the night shift from 5 p, m, to 3 a, m By this method a thirty percent saving in the consumption of coal will be mide,

and the waste of from one to three Tons of glass per week under the old ladle system wilter avoided. Another great saving will be made in dispensing with the pots, which were made of imported clay at great expense, and which had to be renewed every few months The present condition of the glass

market warrants the belief that the centure will be an immediate, and proounced ageness. The starting of the fires in the glass factors will add a very important indus

try to the ast or Middletown's manufac-

turing enterprises. The factory will begin operations with correct 100 men forty of whom will e blowers, who will be brought here from other places and, with their firmthes, will prove a welcome addition to the city's population.

Wedded on Her Return from Her Father's Grave. Res Dr. Lowrse, of Paterson,

progunent Methodist clergyman, who was at one time presiding elder of the which some Orange county churches belong, was buried, Monday afternoon. In the evening his daughter, Laura dertaking (stablishment, Rev. J. S. Stil-Anna, was married to Dr. Horace V. Pike, a recent graduate of Bellevue Medibeing alone in the world it was thought advisable to have the wedding immodultely after her father's funeral.

Died from His Injurie

Charles Onick, who, while majoring a game of ball at Pond Eddy, Aug. 13, was struck on the head by a batted ball which fractured his skull, died in the Port Jerys hospital, Tuesday morning. He did not regain consciousness. He was twenty five years old and is survived by a wife to whom he was married a few

Put Broken Glass on the Pasement,

Some malicious person has on several seemmons recently placed a quantity of broken glass upon the street pavement on Wickham avenue, near North street. The offense was repeated, Tuesday night, but was discovered before any damage had been done to bicycle tires. It will go hard with the mecreant if he is de-

Boy's Skall Fracinged By a Fall.

Ralph, the young son of James Youman, of Port Jervis, who is spending the summer at Hartwood Park, fell from a iny mow, Sunday, fourteen feet - to-the barn floor. His skull was fractured and though the operation of treplening was performed his condition at last accounts was regarded as very critical.

Surprise R. and L. Co.'s Lawn Party.

The lawn party which Surprise Hook ind Ladder Company held, Tuesday vening, on the Berry property, on Wickham avenue, was well attended and all had a pleasant time. The company cleared about \$10.

His Return to Court of Vast Aid In Dreyfus' Trial.

CORNERS GENERAL MERCIER.

RENNES, Aug 23-It was Maitie Labou's day at the Lycee vesterday, where Captain Alfred Dievius is standing trial on a charge of treason. He was the centini figure of the scene. As the Diryfus drama unrolled before a crowded court his full. Vikinglike form, draped in t long black gown bordered with ermine sitting in front of the foothghts was the magnet which from the moment the cur tun was rung up until it fell at noon, dress all regards—not merely glances of currosity, but the steady gaze of admira-tion. His more presents brought bright ness into the constroom and fresh light

into the precedings into the proceedings. I about the what people had expected. He galvanized the dormout defense into an active living thing. Mattic Demange was conclusion. He has always seemed to fear to be id on the military coin. La born is a gladiator and always speaks to touch his to to the quick. Let there be the slightest opening in his opponent's defense and he thrusts home When Matte Demange found nothing

to a 'a witness Maitre Labort's quick eye h il discovered weak spots, and be came forward with searching questions He opencil with an eloquent speech, and the audience could have listened for an hour as his rich melodious voice, in modulated tones and then impassioned outbursts, accompanied by energetic and speaking gestures, filled the courtroom Generals Roget, Billot, Mercier and Boisdeffie with the other military wit nesses give one another anxious glances and put their heads together to exchange obviously disagrecable mapressions as Laborr plied the smaller military fry who occupied the witness stand successizely with disconcerting questions.

Labori coined General Meicier on the

The general was surprised when Labor suddenly demanded that Mercier be recalled. Lyplently be hoped the tribunal would support him in refusing to explain how be got a copy of a better which was of a later date than his incumbercy it the ministry of war But Inbert was not to be denied. He insisted that Mercier should give some - xplanation - Then after besitating Mer

rice declared that he would assume all vars been a site saful teacher in the the responsibility attaching to his posses sun of the decuments. This, as Labor she intruded it should be was a demonstra swith indestromplie to place to talk tich of communication by the general staff of part at least of the sceret s verial of whom have the police and to an ordinary soldier such as Mercier that the million that the sold to be time immediately on learning the min Concral Mercici made a pinable exti-

COLUMBIA'S NEW SAILS. in the Cup Ruces the Herreshof Boat

> BRISTOL R 1 Aug 23-When the cup defender Columbia mests he English chillenger Shamrock in the first of the interactional cup races off Sandy Hook next October, the American yacht will be more heavily sparred and more ranvas than she has had in any race this season.
>
> When the steel mast was tried in the

which collapsed off Newport the first of the mouth. A new boom and gaff are also to be built, longer than the ones used in the tuning up process

Managing Owner C Oliver Isolm has 1st placed an order with a Lawrence Mass) duck manufacturing company for 2,000 yards of special duck which is to be cut up and used for the lower sails of the Columbia. The canvas is to be of a special quality, made in such a manner as to prevent much stretching and will weigh about 21 ounces to a vaid. This will give a total weight for the lower

pounds The canvas for the sails used previously was also made at Lawrence but the order was for only 1,600 yards, which figures indicate that the owners are contemplating an increase in sail of about 400 yards, or about 2,100 square feet, a yard of canvas containing 5½ square feet. It is believed here that the Co-lumbia can carry this great increase of sail without any difficulty and that her speed will increase proportionately

must were lifted out in the forenoon yes terday. They were laid on the deck of a derrick and later taken to the storehous other parts of the eacht as halfast. The Shamtock will lik where she is for the present. She is not to be drydocked until the arrival of Sir Thomas Lipton and perhaps not then for her captain says it is not necessary to hand her out until the time set for measuring her just before the races. The Shamrock is to receive her racing rig at once

TOBACCO SMOKE.

Science has calculated that an average puff of cigar smoke sets free 2,000, 000 tiny particles, a whiff from a pipe liberates over 1,800,000,000 of these particles and one from a clgarette starts 2,900,000,000 of them flying through the surrounding atmosphere.

Experts say that for smoking tobacco is one of the least injurious substances known. Compared with other wellknown vegetable substances used for the same purpose tobacco is very mild. Opium, without doubt, is most fearful in its effects, for the drunkenness it produces ultimately unbalances the mind. Next to opium in power are certain kinds of grasses, notable among which is hemp, which causes intoxica-tion and anaesthesia. It has often been quoted that a grain

of nicotine administered all at once

would kill the strongest dog, and from this have been argued its terrible effeets on the body of a human being. While this statement is undoubtedly true it is somewhat misleading. In or der to commit sulcide by smoking the dog would have to consume 400 atrong cigars, one right after the other. He would put himself out of the world much more easily by eating the boxes. A very curious fact concerning tobacco smoke is the remarkable change in color which it undergoes after entering the mouth. From the burning end of a cigar the smoke issues in deep blue threads, while that which is expelled from the mouth is of a decidedly brownish tint. This difference is to be

TREES.

accounted for by the fact that the mi-

nutest particles have an intense af-

finity for moisture. When tobacco

smoke is drawn into the mouth its

smallest particles are immediately de-

tached from the rest by the presence of

moist surfaces, to which they fly and

lødge.

It is estimated that 400,000,000 feet of logs will be cut in Maine this season. That wood will stand the passing of centuries as well as metal is proved by the unearthing near the Nile of some Egyptian boats nearly 5,000 years old. which are in good condition.

Norway and Sweden export an Immense amount of lumber. In one year \$16,000,000 worth of manufactured lumher was sent out by Norway, while Sweden exceeded this sum by \$39,000,-000 worth of sawn and hewn lumber

A curiosity exists near the Red Bluff Primitive Baptlet church in Ware county, Ga. It is a mammoth mulberry tree and the heart has long since rotted. Out of the heart of the mulberry grow ors.

-A very interesting game was played, a cherry and a peach tree, both of which are eight inches in diameter. They Tuesday, by O. S. Fellows and Elgin grow to a point ten feet above the MacBurney, or Jersey City. They ended ground. All three of the trees are alive and bear fruit every year.

The most noted grove of walkut trees in the United States, containing 51 black walnut trees all of them of enormous size, was sold at (assopolis, Mich., for \$19.0 % cash. The purchasers were berman and English parties. The logs will be cut and squared for shipment, produce \$1,200 worth of choice lumber. It was over 100 feet of good logging size, its largest diameter was 7 feet, circumference, 21.99 feet, and it would require five men hand in hand to encircle it.
